Create an interactive outline of your document.

It's a great way to keep track of where you are or quickly move your content around.

To get started, go to the Home tab and apply Heading styles to the headings in your document.

ML

1.Differnece between ai and ml.

AI	ML
Super set of ml	Subset of ai
It <u>try</u> to create capable computers that can perform the human task	It try to make algorithm that make predictions and improve its performance based on data
Wider scope	<u>Narrower scope</u>
It can work with unstructured data	Not work with unstructured data
It mimics the human intelligence	Enable machine to learn from data and make predictions.
<u>Type:narrow ai,general ai super intelligence AI</u>	<u>Type:supervised,unsupervised and reinforcement learning</u>
<u>Example:self driving car</u>	Spam filters
